

## 1U Cable Bar with Brush Strip

This cable management bar provides an innovative solution for supporting cables. The 1U bar also includes a brush strip feature which provides access into the rack, having a brush instead of an open channel encourages the flow of air within the rack rather than allowing it to flow out the front of the panel.

### Features

- 1U Height
- 19" Rack Mountable
- Integrated brush strip
- Will fit any 19" rack
- Ability to pass patch cords to the rear of cabinets without affecting airflow

### Specification

#### DESCRIPTION

|                                  |                            |
|----------------------------------|----------------------------|
| U Size                           | 1U 44.4mm                  |
| Number of cable rings            | 4                          |
| Ring depth                       | 74mm                       |
| Ring height                      | 42mm                       |
| Number of cable exit points      | 5                          |
| Number of cable exit point large | 3 (84mm x 34mm)            |
| Number of cable exit point small | 2 (44mm x 34mm)            |
| Colour                           | Black RAL 9004 Powder coat |
